

# ADZ-1

Densimetric Analyser  
**ADZ-1**

**ZACCARIA**

# ADZ-1

**Model:**  
ADZ-1

**Power:**  
0,12 kW

**Sample capacity (g):**

• Rice husk

150

• Maize gritz

150

• Other applications under requests

**Approx. shipping volume (m³):**

0,3

**Approx. shipping weight (kg):**

79

Digital Scale (optional)

## Densimetric Analyzer ADZ-1

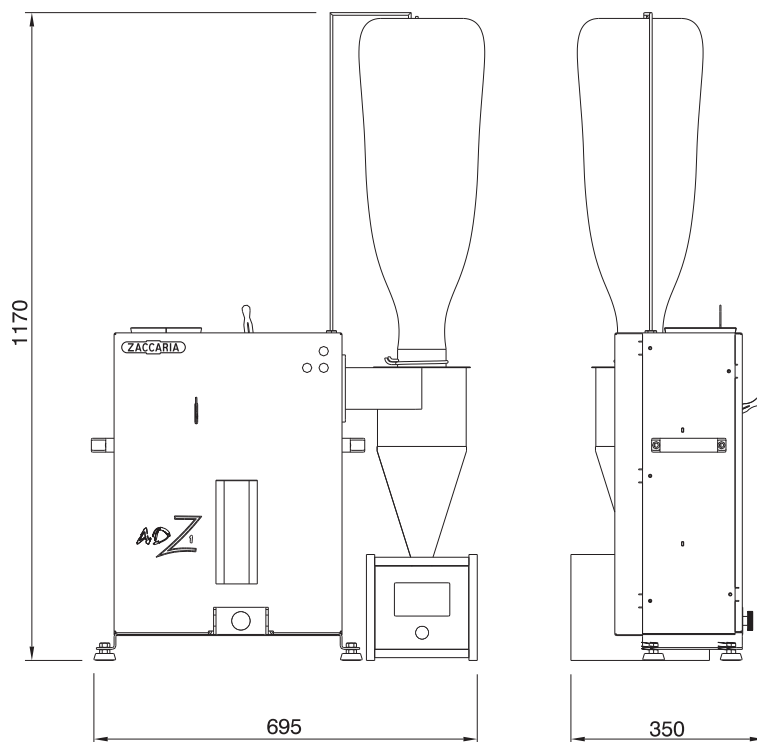

The Densimetric Analyzer, model ADZ-1, is a very important equipment in your lab.

With this equipment it is possible to determine most product's physical characteristics generated during processing (such as rice husk and bran, maize gritz and others), making possible to improve main equipment performance and adjustments.

Using the density difference principle, and through an precise intern air flow system adjustment, it separates and identifies the low density impurities amount in the sample with maximum efficiency.

### CHARACTERÍSTICS

- Compact equipment, with easy operation, maintenance and transportation
- Lightweight and practical to be used at labs or even at production line
- Accuracy and repeatability in the results

Dimensions in mm
