## Rotary Sifter CPRZI-4M/G

The Rotary Sifter model CPRZI-4M/G classify different sizes of cereal grains with high efficiency.

Equipped with a set of plan screens and using a circular movement provides the best classification in 4 different sizes.

The Zaccaria Rotary Sifter model CPRZI-4M/G was developed by drawers structure to facilitate the clean-up and maintenance of screens.

The machine has different set of screens with different meshes, where it can be replaced and changed according to each customer's needs.

### TECHNICAL FEATURES

- The outlet facilitates the linkage between transport system, such as: bucket elevator, screw conveyor, drag conveyors, etc.
- Parts in contact with the grains are entirely made in stainless steel
- Screens in stainless steel
- High production capacity, with less space occupied
- Counter weight system guarantees an excellent static and dynamic balancing
- The base of the machine is closed to avoid dirty deposit and facilitate its cleanliness
- Low maintenance

#### Model:

CPRZI-4M/G

#### Power:

3 hp (2,2 kW) / VI Poles  
1000 rpm (50 hz)  
1200 rpm (60 hz)

#### Inlet Rice Capacity (kg/h):

4200 to 7200 (outlet)

#### Air outflow (m<sup>3</sup>/min.):

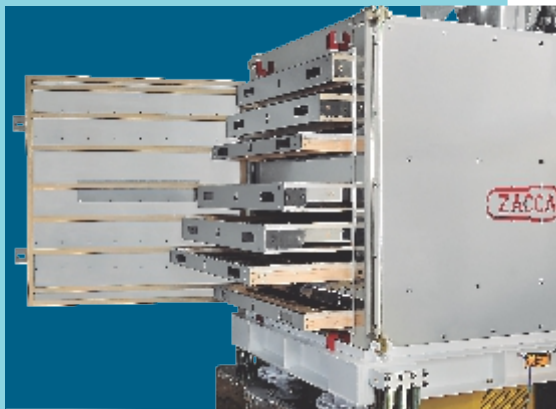

15 to 20

#### Approx. volume: packaged (m<sup>3</sup>)

8,5

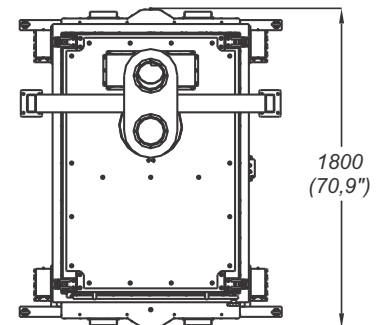

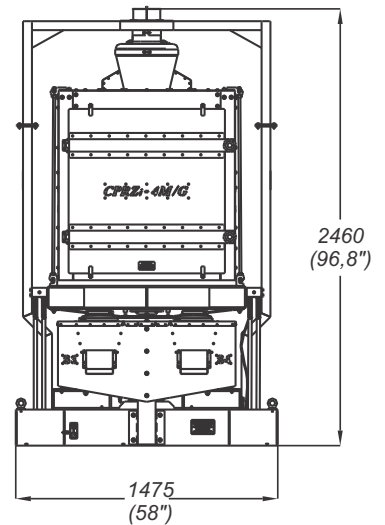

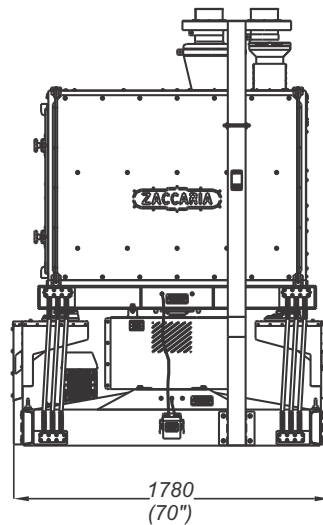

#### Approx. weight: packaged (kg)

1450

- Production Capacity for other cereals and leguminous, contact us
- For maximum performance of rice moisture should be within 12 to 13% (B. U.).
- Machine originally supplied with motor.
