Rice Milling Machine RURAL ZX-6

The compact rice milling machine model ZX-6 is suitable for small rice millings that need to add more value to the final product, who need to increase their actual production capacity and for those who need to replace old generation pieces of equipment for modern ones.

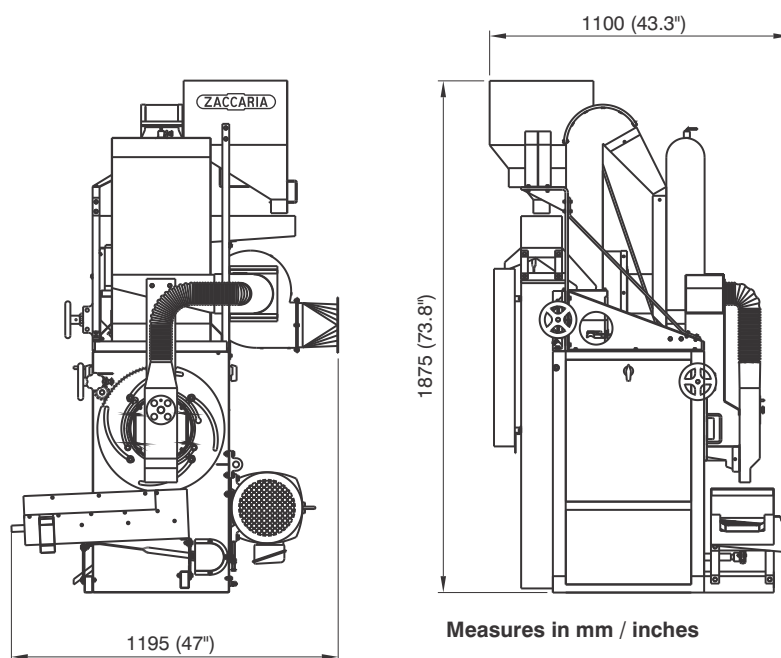

In all previous cases mentioned the Rural ZX-6 unit is applicable with several advantages. It is a simple machine, very compact, of easy operation and maintenance and low power consumption.

THE MACHINE IS COMPOSED BY

- A single electric motor
- Hopper for paddy rice with adjustable charge gate
- Oscillating sieve to remove of impurities with different size of paddy grains
- Paddy husker using rubber rolls
- Husk separation chamber
- Horizontal whitener using abrasive rings and rubber brakes
- Simultaneous brake adjust system

OPTIONALS

- Kit for diesel motor
- Cyclone for husk separation
- Stand made of angle plate
- Feeding elevator with hopper
- Length grader cylinders to classify the broken grains with elevator and outlet for bagging
- Electric motor

EXPERIENCE THAT MAKES THE DIFFERENCE
